# CONTENTS

'Let's care for the environment!'

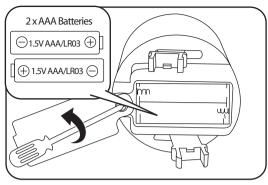

The wheelie bin symbol indicates that the product must not be disposed of with other household waste. Please use designated collection points or recycling facilities when disposing of the item. Do not treat old batteries as household waste. Take them to a designated recycling facility.

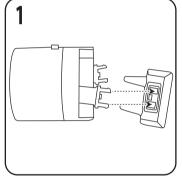

### **BEFORE YOU BEGIN**

An adult must install fresh alkaline batteries (not included) in the robot base prior to playing. Here's how: 1. Remove the feet from the robot base.

- 2. Using a Phillips screwdriver (not
- included) remove the screw battery compartment cover on the bottom of the base.
- 3. Install two (2) 1.5V AAA (LR03) alkaline batteries (not included) making sure the (+) and (-) ends face the proper direction as indicated inside the battery compartment.
- 4. Replace the compartment cover and tighten the screw.

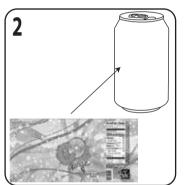

## **QUICK START**

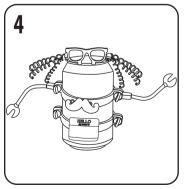

1. Snap the two feet onto the robot base with the points facing inward as shown.

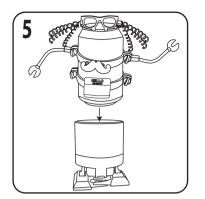

3. Place one front ring clamp and one rear ring clamp around the can and secure with screws. Repeat with additional ring clamps.

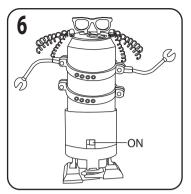

2. Peel the sticker label from its backing and wrap it around the soda can.

4. Build your robot by attaching parts to the can rim, adding accessories to the openings on the clamps and attaching eye stickers.

5. Place the robot into the robot base.

6. Move the switch on the back of the unit to the "ON" position to make your robot walk!

#### **IMPORTANT INFORMATION**

- Always turn the robot base "OFF" after playing to conserve battery life.
- DO NOT expose the robot base to moisture of any kind.
- Do not use stickers on humans, pets, furniture or any item which may be damaged by sticker or sticker removal.
- Stickers may not be removable once applied to the can or can label.

### SAFE BATTERY USAGE

- Use alkaline batteries for best performance and longer life.
- Use only the type battery recommended for the unit.
- Batteries should be replaced only by an adult.
- Insert batteries with the correct polarity (+ and ).
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable(nickel-cadmium) batteries.
- · Do not short-circuit batteries.
- When not used for an extended time, remove batteries to prevent possible leakage and damage to the unit.
- Do not mix rechargeable and non-rechargeable batteries.
- Rechargeable batteries are to be removed from the toy before charging.
- Rechargeable batteries are to be recharged only under adult supervision.
- Do not recharge non-rechargeable batteries.
- Exhausted batteries are to be removed from the toy.
- Do not dispose of batteries in fire as they may leak or explode.
