## LET'S PLAY!

REMEMBER: Move the switch from TRY ME (X) to ON (●) before playing as shown on page 1.

Pet the top of the dog's head firmly, and the dog will greet you!

Press the stethoscope under your dog's heart-shaped tag. You'll hear the dog's heart beating!

To give it a shot, press the end of the shot on the spot on it's back. The dog will bark when you hit the right spot.

If you squeeze the dog's left front paw, it will glow and the dog will whimper. Place the cast over the paw to make your dog feel better.

**NOTE:** The dog will stop whimpering if you place the cast over the paw **OR** squeeze both sides of the paw at the same time.

## TROUBLESHOOTING AND TIPS
